

JUNIOR GEOPHYSICIST

(Brazil)

CGG's GeoPI (Geophysicist Processing Induction) program is designed to develop geophysicists in the field of data processing.

The goal of this program is to provide participants with background information and practical software skills to prepare them for early productivity.

The program focuses on theoretical and on-the-job training in one of our most prestigious processing centers located in Houston, Texas.

Over a six-month period, GeoPI recruits are mentored by their operations supervisor and HR network to monitor their progress.

Please send your resume to BRL.Recruitment@CGG.com

People with disabilities are welcome to apply.

REQUIREMENTS

- Master's degree or Ph.D. in Geophysics, Physics, Mathematics, Engineering or any other analytical discipline
- Advanced Portuguese and English
- No previous work experience required

CGG is a fully integrated Geoscience company providing leading geological, geophysical and reservoir capabilities to its broad base of customers primarily from the global oil and gas industry. Through its three complementary business divisions of Equipment, Acquisition and Geology, Geophysics & Reservoir (GGR), CGG brings value across all aspects of natural resource exploration and exploitation. CGG employs 8,500 people around the world, all with a Passion for Geoscience and working together to deliver the best solutions to its customers. CGG is listed on the Euronext Paris SA and the New York Stock Exchange.
